## **Introduction**

KAIST Master of Science in Information Management is a 2-year part-time Master program 'To Become a IT Management Professional'. MS in Information Management aims to foster Professionals with knowledge of IT technology and with insight of IT industry through providing education with those who desire self-improvement but have difficulties to enroll in full-time degree programs.

MS in Information Management is designed to accomplish in total 39 credits for 4 semesters, including 'Thesis for Graduate Students(6)' and 'Business Communication(3)'. Students have opportunity to experience advanced IT industry by participating in 'International Field Trip(3)' for about a week during summer semester. The first venue will be UC Irvine (tentative) in the United States in 2013summer.
