

Educational Program for LGIT LED

URL : epll.kaist.ac.kr
Dept. Phone : +82-42-350-8223

Introduction

Educational Program for LGIT LED was established to contribute national competitiveness by securing the manpower in the field of the LED source technology and cultivating the excellent human resources through participating of four departments in KAIST (Physics, Materials Science & Engineering, Chemical & Biomolecular Engineering, Mechanical Engineering) and LG Innotek. It aimed to support the stable and ongoing opportunity to gain research experience for students who participate this educational program through collaboration with LG Innotek.
