

Education of Graduate School of Ocean Systems Engineering at KAIST

The graduate school of Ocean Systems Engineering (OSE) is a graduate program within the department of Mechanical Engineering (ME) at KAIST. Our core objectives are to educate young talents and conduct research so that its graduates will play leading roles in the new burgeoning frontiers of ocean systems for the world's leading shipbuilding / offshore industry and naval defense research.

M.S. program

- ▶ Graduation requirement 33 credits
(Research credits included)
- ▶ Dual degree program with foreign universities
- ▶ Research proposal is submitted in the beginning of second semester of the second year, and a thesis is presented in the end of second semester.

Ph.D. program

- ▶ Graduation requirement 60 credits
(Research credits included)
- ▶ Dual degree program with foreign universities
- ▶ Qualifying examination has to be passed within 1.5 years. Final dissertation consists of presentation and oral examination.

Integrated M.S. and Ph.D. program

- ▶ Graduate students, who have enrolled for at least 1 semester into the M.S. program and are recommended by the advisor, can advance into the Ph.D. program without completing the M.S. program.
-
