

**Major Course Requirements for
Dept. of Materials Science and Engineering
(For undergraduate students admitted in 2015 or before)**

Please check the common graduation requirements.

■ **Credit Requirement for Graduation:** Required to complete a total of more than 130 credits

■ **Major:** at least 42 credits

- **Mandatory Major Courses:** at least 18 credits

- MS212 Thermodynamics of Materials, MS213 Crystallography and Diffraction, MS310 Quantum Chemistry for Materials Scientists, MS311 Phase Transformation and Microstructure Evolution, MS321 Advanced Materials Lab I, MS322 Advanced Materials Lab II

- **Elective Major Courses:** at least 24 credits

■ **Minor:** at least 18 credits

- at least 18 credits from major courses, including 9 credits in required major courses.

■ **Double Major:** at least 40 credits

- at least 40 credits from major courses, including 18 credits in required major courses.

■ **Research Courses:** at least 3 credits

- Students must take 3 credits for Research in Materials Science and Engineering (MS490).

- Credits from seminar and Individual Study are counted as Research Course credits.

※ Students having a double major are exempt.

□ **Transitional Measures**

- Students admitted in 2015 or before may choose to be governed by the completion requirements applicable to students admitted in 2016 and after if desired.

- Students who entered in 2014 or later should fulfill current degree requirements. Students who entered before 2013 should refer to the degree requirements in the respective year.

**Major Course Requirements for
Dept. of Materials Science and Engineering
(For undergraduate students admitted in 2016 and after)**

Please check the common graduation requirements.

■ **Credit Requirement for Graduation:** Required to complete a total of more than 136 credits

※ Required to choose and complete one among Advanced Major, Double Major, Minor, and Individually Designed Major.

■ **Major:** at least 42 credits

- **Mandatory Major Courses:** at least 18 credits

- MS212 Thermodynamics of Materials, MS213 Crystallography and Diffraction, MS310 Quantum Chemistry for Materials Scientists, MS311 Phase Transformation and Microstructure Evolution, MS321 Advanced Materials Lab I, MS322 Advanced Materials Lab II

- **Elective Major Courses:** at least 24 credits

■ **Advanced Major:** at least 15 credits

- from Elective major course

■ **Individually Designed Major:** at least 12 credits

- Students must take 12 credits or more of major courses from more than two departments other than Materials Science and Engineering.

■ **Minor:** at least 18 credits

- at least 9 credits each from mandatory and elective major course.

※ No credits from the same course will be doubly counted to satisfy major and minor department requirements.

■ **Double Major:** at least 40 credits

- at least 40 credits from major courses, including 18 credits in required major courses.

※ Up-to 6 credits can be doubly counted to satisfy both major department requirements.

■ **Research Courses:** at least 3 credits

- Students must take 3 credits for Research in Materials Science and Engineering(MS490).
- Credits from seminar and Individual Study are counted as Research Course credits.
- ※ Students having a double major are exempt.

Transitional measures

Students admitted in 2015 or before may choose to be governed by the completion requirements listed above if desired.

**Major Course Requirements for
Dept. of Materials Science and Engineering
(For Master's Program)**

Thesis Mater's Degree Program

Please check the common graduation requirements.

■ **Credit Requirement for Graduation:** Required to complete a total of more than 33 credits

■ **Mandatory General Courses:** 3 credits and 1AU
CC512 is acknowledged as mandatory general course for students in other major.

■ **Mandatory Major Courses:** 3 credits
MS511 Thermodynamics and Phase Equilibria

■ **Elective Courses:** at least 15 credits
- should take more than 6 credits offered by the department of Materials Science and Engineering

■ **Research Courses:** at most 12 credits. (including 2 credits in Seminar)
- Foreign students are allowed to take HSS586 or HSS587 instead of 2 credits in Seminar.

□ **Transitional Measures**

- Students who entered in 2017 or later should fulfill the current degree requirements.
- Students who entered before 2016 should refer to the degree requirements in the respective year.(For integrated master and doctoral program, the year of entering the master's course is applicable)
- The exemption regulation of Seminar course requirements for foreign students is applicable to all foreign students as of 2011.

**Major Course Requirements for
Dept. of Materials Science and Engineering
(For Doctoral Program)**

Please check the common graduation requirements.

- **Credit Requirement for Graduation:** Required to complete a total of more than 60 credits
- **Mandatory General Courses:** 3 credits and 1AU
CC512 is acknowledged as mandatory general course for students in other major.
- **Mandatory Major Courses:** 3 credits
MS511 Thermodynamics and Phase Equilibria
- **Elective Courses:** at least 24 credits
- should take more than 9 credits offered by the department of Materials Science and Engineering
- **Research Courses:** at least 30 credits.(including 2 credits in Seminar)
- Foreign students are allowed to take HSS586 or HSS587 instead of 2 credits in Seminar.
※ The course credits earned in the Master's course work can be used towards the Doctoral degree (except research credits).

□ **Transitional Measures**

- Students who entered in 2017 or later should fulfill the current degree requirements.
- Students who entered before 2016 should refer to the degree requirements in the respective year.(For integrated master and doctoral program, the year of entering the master's course is applicable)
- The exemption regulation of Seminar course requirements for foreign students is applicable to all foreign students as of 2011.

**Major Course Requirements for
Dept. of Materials Science and Engineering
(For MS-PhD Integrated Program)**

Please check the common graduation requirements.

■ **Credit Requirement for Graduation:** Required to complete a total of more than 60 credits

■ **Mandatory General Courses:** 3 credits and 1AU
CC512 is acknowledged as mandatory general course for students in other major.

■ **Mandatory Major Courses:** 3 credits
MS511 Thermodynamics and Phase Equilibria
