■ Overview

To lead the Korean society and global community, Moon Soul Graduate School of Future Strategy sets the objective to identify and set long-term strategies and policies through an understanding of new technologies and extensive knowledge. Our school focuses on educating and training talented and creative professionals who can overcome uncertainties and rapid societal change with professional capability in the fields of (1) intellectual property, (2) science journalism and (3) future strategy. The ultimate goal of the KAIST Moon Soul Graduate School of Future Strategy is to contribute to the advancement and prosperity of humanity, first and foremost as a research and academic institute for future strategy in Korea.
